ASSOCIATE IN ARTS in Teacher Preparation

Arts

ABOUT THE PROGRAM

The Associate in Arts in Teacher Preparation program prepares students for completion of a bachelor's degree in the field of K12 education. Students who complete an AATP degree will be able to transfer 60 credit hours (the equivalent of four semesters of study) to another college or university to complete their undergraduate degree. The AATP may be completed through seated or online classes or a blend of both. AATP students work closely with academic advisors to help them transfer to both public and private universities and colleges. Transfer within the state of North Carolina is done by way of the Comprehensive and Independent Articulation Agreements.

CCCC Career Community

The Arts career community serves a diverse, imaginative student population that enjoys creating content. These students are socially engaged, global thinkers who are aware of current events and enjoy reading or writing. They may be interested in earning a four-year credential or owning their own businesses. Graduates are employed in a variety of roles including lawyer, interpreter, copy editor, radio personality, and music producer.
